Unleash Efficiency: Marathon's Genuine Spare Parts: Our Assurance for Quality, Interchangeability and Longevity

Marathon Krane Range Motors have been specifically designed for crane applications and the mechanical features are such that they are particularly suitable for this duty.

APPLICATIONS

Marathon™ Low Voltage Heavy Duty Wound Rotor Krane Range Motors have been designed and rated for driving, hoisting, hauling and other intermittently operated machinery in the metal industries.

Marathon™ GENUINE SPARE COMPONENTS

Marathon™ is the original equipment manufacturer & reputed in motor industry. Being ISO9000 certified company, the reliability and quality of supplied spare parts are ensured. While ordering spares it is important to state the motor serial number as given on the motor rating plate for ensuring the correct supply of spares in respect to its interchangeability. The qualified spare part is traceable wrt PO/Jobspecifcno./ Part number with QC endorsed tag. All the spare parts are being painted with epoxy primer coating & finally epoxy finish painting for long last weather protection except particular machining area & mating faces. Those particular area will be protected by thin layer of rust protective lacquer paint.

The key benefits of Marathon supplied spare parts are:

- Assured quality
- Interchangeability
- Hassle free assembly
- Company warranty
- Technical support
- Hologram sticker on every spare parts for originality
